MEET YOUR LEADER

Samuel Reategui is the pastor of a Lima church and a member of Christ For the City staff. After many years of being on the Board of Directors for Christ For the City, Pastor Samuel accepted the challenge of becoming the new Director of CFCI-

Peru last year.

Pastor Samuel has a heart for unifying believers across the boundaries of culture, country, and denominational beliefs. He loves receiving teams to his country and connecting them with local church congregations. He also loves reaching out to the communities and neighborhoods of his city using evangelism and outreaches. Concerts, VBS, seminars, construction, and street drama are all methods Pastor Samuel uses to bring the gospel to Lima.

He also works hard to support and train church and community members. He and his staff put together conferences for children-at-risk, seminars to strengthen families, and vocational training for women.

MORE DETAILS

Your team will create an outreach in partnership with a local church in the city of Inquitos. Using the team's skills in teaching, drama, music, or puppetry, the outreach will target children and families in the community and the church's congregation.

The specific outreach tools your team will use depends on you! What talents and gifts has God given you that you would like to share with this team? One of our goals with the Peru 2009 team is to be flexible enough to let you participate in creating some of the team's ministry activities. The result will be a trip led, not by our own design, but by the Spirit.

Join us and share your unique talents with the Peru 2010 team.
